<b>Total transported.</b>	<b>11,664</b>		

- The above numbers are approximately taken from our register. But there are Seafarers who are served outside the registered numbers.
- The Masses served on boat the ships are not registered because we count only the number of Seafarers who enter in to the doors of Mariner's House.
- Therefore the exact numbers served are much more than the given registered numbers.
- Mainly we get Seafarers from Philippines, India and Canada and for all the past years the Filipino Seafarers were topping the number. But last year we received more Canadian Seafarers than the Filipinos.
